

## Redmine - Patch #26359

### User linking by id ("user:74")

2017-07-05 15:41 - Andrey Lobanov (RedSoft)

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Text formatting	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Description</b> I think this feature won't hurt. So now you can type:  user:74  and  user:woblavobla			

#### History

##### #1 - 2017-07-05 23:49 - Mischa The Evil

- Category set to Text formatting

- Status changed from New to Needs feedback

I don't get it. What does your patch add in contrast to what is already supported? As of Redmine [3.4.0](#), user links in the following formats are supported:

- user#userid (eg. user#1)
- user:login (eg. user:admin)
- @login (eg. @admin)

For the rationale behind the supported syntax, see [#4179](#). Basically, it comes down to this:

- Redmine links with a pound sign behind the object take a numerical value
- Redmine links with a colon behind the object take a textual value

Can you please elaborate on the purpose of and rationale behind your patch?

I'm sorry my local trunk was at 3.3.0, so this feature wasn't implemented.

##### #3 - 2017-07-08 02:17 - Mischa The Evil

- Status changed from Needs feedback to Closed

I'm sorry [...]

Not a problem. I'll close this issue accordingly.

[...] my local trunk was at 3.3.0, so this feature wasn't implemented.

OT: still, your patch won't apply to 3.3.0 either...
