

## Redmine - Defect #2641

### other-formats paragraph location is inconsistent

2009-02-02 06:33 - Brad Beattie

<b>Status:</b>	Closed	<b>Start date:</b>	2009-02-02

<b>Resolution:</b>	Cant reproduce		
<b>Description</b>			
<p>On an issue view page, the other-formats paragraph appears at the bottom of the page, just above the footer through use of</p> <pre>&lt;div style="clear: both;"/&gt;</pre> <p>On other pages, the other-formats paragraph appears simply as the last element in the #content div.</p> <p>It doesn't really matter to me which one is used, but I figured consistency would be good, yeah? The following patch puts all at the bottom through use of relative absolute positioning with the #content div and, consequently, removes the single instance of the clear div.</p> <pre>### Eclipse Workspace Patch 1.0 #P Redmine Index: app/views/issues/show.rhtml ===== --- app/views/issues/show.rhtml      (revision 2338) +++ app/views/issues/show.rhtml      (working copy) @@ -99,7 +99,6 @@ &lt;%= render :partial =&gt; 'history', :locals =&gt; { :journals =&gt; @journals } %&gt; &lt;/div&gt; &lt;% end %&gt; -&lt;div style="clear: both;"&gt;&lt;/div&gt;  &lt;% if authorize_for('issues', 'edit') %&gt;   &lt;div id="update" style="display:none;"&gt; Index: public/stylesheets/application.css ===== --- public/stylesheets/application.css (revision 2352) +++ public/stylesheets/application.css (working copy) @@ -55,7 +55,7 @@ #sidebar hr{ width: 100%; margin: 0 auto; height: 1px; background: #ccc; border: 0; } * html #sidebar hr{ width: 95%; position: relative; left: -6px; color: #ccc; }  -#content { width: 80%; background-color: #fff; margin: 0px; border-right: 1px solid #ddd; padding : 6px 10px 10px 10px; z-index: 10; } +#content { width: 80%; background-color: #fff; margin: 0px; border-right: 1px solid #ddd; padding : 6px 10px 10px 10px; z-index: 10; position: relative; } * html #content{ width: 80%; padding-left: 0; margin-top: 0px; padding: 6px 10px 10px 10px; } html&gt;body #content { min-height: 600px; } * html body #content { height: 600px; } /* IE */ @@ -308,7 +308,7 @@ div.attachments img { vertical-align: middle; } div.attachments span.author { font-size: 0.9em; color: #888; }  -p.other-formats { text-align: right; font-size:0.9em; color: #666; } +p.other-formats { text-align: right; font-size:0.9em; color: #666; position: absolute; bottom: 0; right: 1em; } .other-formats span + span:before { content: "  "; }  a.atom { background: url(..images/feed.png) no-repeat 1px 50%; padding: 2px 0px 3px 16px; }</pre>

### #2 - 2019-02-15 14:27 - Anonymous

Maybe it's safe to close this issue now, because it's obsolete.

1. Seems like it's from the era when views used to be in .rhtml format
2. `<div style="clear: both;"></div>` line don't exist in **show.html.erb** already and

```
<% if authorize_for('issues', 'edit') %>
<div id="update" style="display:none;">
```

is now a part of a separate file, called **\_action\_menu\_edit.html.erb**.

3. " *The other-formats paragraph appears at the bottom of the page, just above the footer through use of `<div style="clear: both;">`* " It doesn't appear above footer the way it probably used to anymore and `<div style="clear:both;"></div>` probably shouldn't actually exist anywhere, because it's another useless DIV block. It is in **base.html.erb** now though.

4. It's not a .patch or .diff file people could easily test.

### #3 - 2019-02-15 16:00 - Marius BĂLTEANU

- Tracker changed from *Patch* to *Defect*

- Status changed from *New* to *Closed*

- Assignee deleted (*Jean-Philippe Lang*)

- Resolution set to *Cant reproduce*
