Description

Hello,

I upgrade to the new 3.4.1.
If I select an alternate theme, the project list will printed completely in the blue headline.
No dropdown is shown.
This is happening in all themes, like 'alternate', 'classic' and my own.
It seems that the new feature #23310 isn't working correctly with the provided default themes.

Best regards,
Nils

No problem in my environment (Redmine 3.4.1, Alternate theme).
Perhaps clearing your browser's cache may fix the problem.
