

Redmine - Feature #26465

Make the format of issue links configurable

2017-07-18 09:39 - Robert Schneider

<div>Status:New</div> <div>Priority:Normal</div> <div>Assignee:</div> <div>Category:Text formatting</div> <div>Target version:</div> <div>Resolution:</div>	<div>Start date:</div> <div>Due date:</div> <div>% Done:0%</div> <div>Estimated time:0.00 hour</div>
<div>Description</div> <div>Inspired by #20063-3 I thought that it would be nice to have the option to change the format of issue title displaying when they get rendered as a link. That could be used in the activity view as well or possibly any other location.</div> <div>In the end what I would like to have is the option to render the tracker combined with the status, so that it gets more human readable. For example:</div> <div>Unseen feature #123: bla Open Bug #234: bla Closed Bug #456: bla Implemented Feature #567: bla</div> <div>As you see the status is the first word, the tracker the second. However, I think in other languages the order should be different, so it needs to be made configurable (or it is hard-coded somewhere).</div> <div>Sure, the status have to be combinable. Also the Tracker must not be a plural word. 'Needs feedback Features' sounds a bit cumbersome, but it's still okay. If it would be configurable you could still achieve something like</div> <div>issue-link-sample.png</div>
