

Redmine - Defect #26504

Rails 5 unit and functional tests

2017-07-23 19:08 - Toshi MARUYAMA

Status: New	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	Affected version:
Resolution:	
Description	
On trunk r16872, "rake test:units" and "rake test:functionals" cannot run. Rails 5 changes directories. - test/unit -> test/models - test/functional -> test/controllers http://guides.rubyonrails.org/testing.html#rails-sets-up-for-testing-from-the-word-go	

Associated revisions

Revision 16873 - 2017-07-23 19:23 - Toshi MARUYAMA

add empty directories to run "rake test:units" and "rake test:functionals" (#26504)

Revision 16930 - 2017-07-30 20:23 - Jean-Philippe Lang

Move helper tests to test/helpers (#26504).

Revision 16931 - 2017-07-30 20:24 - Jean-Philippe Lang

Removes test/unit/helpers (#26504).

History

#1 - 2017-07-23 19:23 - Toshi MARUYAMA

I have committed r16873.

#2 - 2017-07-24 21:30 - Jean-Philippe Lang

Should we move the tests to the new models, controllers... folders?

#3 - 2017-07-25 06:26 - Toshi MARUYAMA

Jean-Philippe Lang wrote:

| *Should we move the tests to the new models, controllers... folders?*

I don't know.

But [Japanese document](#) says

- rake test:units -> run in test/models test/helpers, and test/unit
- rake test:functionals -> run in test/controllers, test/mailers, and test/functional

#4 - 2017-07-25 06:29 - Toshi MARUYAMA

Toshi MARUYAMA wrote:

| But [Japanese document](#)

I cannot find this part in [English document](#) .

#5 - 2017-11-23 21:58 - Jeremy Bailey

| *Should we move the tests to the new models, controllers... folders?*

I don't know either, but I wanted to help out by finding the cause of the documentation discrepancy.

| *I cannot find this part in [English document](#) .*

It looks like the localized Japanese version of the Rails guide is out of date. This table appeared in the [English 4.1 version](#) but was [removed from the English back on March 29th, 2015](#).

Maybe this overview of [changes to testing in Rails 5](#) will be helpful too.

It appears that rake test should now be bin/rails test in Rails 5. I'm not a Rails developer, just wanted to do a little detective work to move this forward as a user looking forward to using Redmine 4 eventually!

#6 - 2018-09-15 09:13 - Jean-Philippe Lang

- Target version deleted (4.0.0)

Changes not required and would make merging test changes between branches less easy.
