

Redmine - Defect #26608

Assign Role to a Custom Query fires an error-message

2017-08-02 12:15 - Anonymous

Status: Closed	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Issues	Estimated time: 0.00 hour
Target version:	Affected version: 3.1.0
Resolution: Duplicate	
Description Error store Custom Query On creating custom issue-queries it is possible to assign a role to permit access to that query to users of that role. But saving that query failes because selected roles are cleared on saving-process. Following effect is occuring an errormessage that roles has to be selected - but they were selected. <u>Reproduce as:</u> <ul style="list-style-type: none">• Create a custom query• Select for visibility: Only for these roles and select effected roles• Press save-button• Error occures: "Roles has to be selected"
