

Redmine - Defect #26627

Editing issues no longer sends notifications to previous assignee

2017-08-04 21:07 - Rocket Lee

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:	3.4.3	Affected version:	3.4.2
Resolution:	Fixed		
Description			
Editing issues no longer sends notifications to previous assignee.			
<p>This is happening because of the change made in #25794, which changed app/models/journal.rb from after_create :send_notification to after_commit :send_notification, :on => :create. This is causing clear_assigned_to_was() in app/models/issue.rb to be called before the notifications are being generated and so the previous assignee variable is already set to nil when it's time to send the notification. after_commit runs too late.</p> <p>I know this affects up through 3.4.2, but I don't know how it affects the new master.</p> <p>Here's the specific line change: https://github.com/redmine/redmine/commit/9439cae70fab58b8cafdd753aa83135d4279345d#diff-b3b2ca7a3d44a3146792e51535d4acd5</p>

Editing issues no longer sends notifications to previous assignee (#26627).

History

#1 - 2017-08-05 05:55 - Toshi MARUYAMA

- Related to Defect #25794: Mass-deleted attachments are not represented correctly in email notifications added

#2 - 2017-08-05 05:58 - Toshi MARUYAMA

- Status changed from New to Confirmed

- Target version set to 3.4.3

Confirmed.

I don't know why "test_update_should_notify_previous_assignee" does not catch.
