Redmine - Patch #26721

use find_by instead of detect

2017-08-19 05:01 - jwjw yy

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Code cleanup/refactoring		**Estimated time:**	0.00 hour
Target version:				

Description

In project.rb

```
enable_module(name)
  enabled_modules.detect {|m| m.name == name}
end
```

should be replaced by in order to only get the specified enabled_module instead of doing filtering after retrieving them all.

```
enabled_modules.find_by(name: name)
```

History

#1 - 2017-08-19 05:27 - jwjw yy

- File project.rb.2.diff added

same situation for copy_issues

#2 - 2017-08-19 05:43 - jwjw yy

- File project.rb.3.diff added

#3 - 2017-08-19 07:54 - Toshi MARUYAMA

- Tracker changed from Defect to Patch

- Description updated

- Category set to Code cleanup/refactoring

- Target version set to 4.1.0

Please don't use "Defect" tracker for **not** defect.
Please use code highlighting in description. It is too hard to read.

#4 - 2017-08-21 00:50 - Pavel Rosický

enabled_modules and versions are usually preloaded, so detect is more effective then find_by that will always trigger a new database query

#5 - 2017-08-21 08:03 - Toshi MARUYAMA

- Status changed from New to Needs feedback

- Target version deleted (4.1.0)

#6 - 2021-06-06 08:59 - Go MAEDA

- Status changed from Needs feedback to Closed
