Ticket #3806 has a quick solution.

+1 for a feature like Wiki Templates.

Some useful things would be:

- Create doc templates;
- Create packages of templates for different types of projects;
- Create report-wiki templates with a form for the default fields;
    ....

There is a plugin

#3 - 2015-05-06 15:47 - Marc D.

+1 because the plugin does not work with Redmine 3.x
