Which version of Redmine are you upgrading from?
This error means that you have a project with an invalid identifier. Did you change one of them by hand in the database?

#3 - 2009-02-06 11:25 - Antonio Fallucchi

I have upgrade redmine versione 0.8.0.devel.2251
I can change entry in the database, Now I try what identifier is incorrect.
There are invalid characters?

- Status changed from New to Resolved

I found the character "_" which causes the error.
thanks
