

Redmine - Defect #2700

TypeError (can't modify frozen string)

2009-02-08 23:16 - Stefan Urbanek

Status:	Closed	Start date:	2009-02-08
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	0.8.1	Affected version:	
Resolution:			
Description			
I am getting:			
<pre>TypeError (can't modify frozen string): /app/controllers/settings_controller.rb:44:in `<<' /app/controllers/settings_controller.rb:44:in `edit' /app/controllers/settings_controller.rb:22:in `index'</pre>			
when trying to access '/settings'.			
I am running the application using Passenger with URI my_server/projects. In environment.rb I have set:			
<pre>config.action_controller.relative_url_root = '/projects'</pre>			
when I remove the line and run the Redmine application using scripts/server everything works just fine.			

Associated revisions

Revision 2423 - 2009-02-09 18:18 - Jean-Philippe Lang

Fixed: TypeError (can't modify frozen string) on settings view (#2700).

History

#1 - 2009-02-09 00:33 - Stefan Urbanek

Change line:

```
@guessed_host_and_path = request.host_with_port
```

to:

```
@guessed_host_and_path = ''  
@guessed_host_and_path += request.host_with_port
```

in settings_controller.rb around line 44.
