+1 It would be nice to change the assigned user by email.

Wouldn't these fields be more consistent if they were:

Start\_Date  
Due\_Date  
Done\_Ration  
Estimated\_Hours  
Assigned\_To

instead of the lowercase versions that this patch provides?

The other keywords must be uppercase (such as Project, Status), so making these lowercase seems like it would lead to confusion.

Also, I assume the underscore is there because it would not otherwise be possible with a space?

I have these patches. But it still does not work for me.  
May be I should apply them somehow?

Thank you.  
P.S. Sorry for off-topic.
