

Redmine - Defect #2703

Link to Changesets is shown to User without credential

2009-02-09 12:20 - Steffen Dietz

Status:	New	Start date:	2009-02-09
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Permissions and roles	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:			
<b>Description</b> The link to a changeset, which updated a ticket status, in ticket comments is shown to users, even if they dont have the credentials to view the changeset.  So the user gets a "you're not allowed to access this" error page on accidently clicking on the link.			

History

#1 - 2010-06-18 19:15 - Jean-Baptiste Barth

- Affected version (unused) changed from 0.8.0 to devel

I think it's a much more general issue : nearly wherever you are in Redmine, there can be links you can't follow if you do not have the "View" permission on the section/module. It might be difficult to do this without coupling links parsing and permissions... Any thought about that ?

#2 - 2011-03-23 11:28 - Toshi MARUYAMA

- Category set to Permissions and roles
