

Redmine - Defect #2719

Increase username length limit from 30 to 60

2009-02-11 15:16 - Alexander Pavlov

Status:	Closed	Start date:	2010-09-21
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Accounts / authentication	Estimated time:	0.00 hour
Target version:	1.4.0	Affected version:	
Resolution:	Fixed		
Description We use LDAP authorization and our logins consist of firstname.lastname.companyname. As result, we faced problem with registering new users within Redmine. Could you please increase username lenght limit to 60 or more?

Thank you, Enderson!

#3 - 2010-04-22 18:09 - Ludovic Gasc

+1 for this feature, it's useful if the e-mail = login.

The patch seems to work correctly on the 0.9 branch.

#4 - 2010-05-25 13:20 - Jens Peter Kempkes

working on 0.9.3 stable I saw this issue. When will this patch be merge into the stable branch?

#5 - 2010-07-28 16:44 - Enderson Maia

My <http://github.com/enderson/redmine> has this patch applied, I think it could be easily merged into trunk.

#6 - 2011-03-17 10:28 - Etienne Massip

- Target version set to Candidate for next major release

#7 - 2011-03-17 23:17 - Cheyenne Wills

If possible, could this be bumped into a "sooner" release?? (if not I assume the above patch will work against the current stable).

Thanks

#8 - 2011-04-21 13:21 - Jochen Manz

bump, i also need it!

#9 - 2011-09-05 08:49 - Peter Fern

Upvote.

#10 - 2011-10-25 20:12 - Bruno Bigras

- File *2017_change_max_username_length.patch* added

Here's an updated quilt version of the patch that I'm using with the Ubuntu package from the PPA.

I had to change "ChangeUserNameLimit" to "ChangeUserLoginLimit" to match the file name for the migration to works.

#11 - 2011-12-18 14:50 - James Birmingham

This has taken a long time to be resolved, their is also [#4991](#).
Can we be sure that when this does get added into a release that the database schema is also updated as the constraint is present there also, which the above patch seems to miss.

#12 - 2011-12-18 15:01 - James Birmingham

Can we get the priority raised on this, as it is a blocking issue for users we legacy accounts to integrate with Redmine.

#13 - 2012-02-05 12:51 - Jean-Philippe Lang

- Due date deleted (2010-09-21)
- Status changed from New to Closed
- Assignee set to Jean-Philippe Lang
- Target version changed from Candidate for next major release to 1.4.0
- Resolution set to Fixed

Change done in [r8778](#). Username and email address can now be 60 characters long.

#14 - 2022-03-23 00:30 - Go MAEDA

- Related to Feature #36825: Increase email address length limit from 60 to 254 added
