

Redmine - Patch #27240

Render the activities block on the UsersController#show view grouped, with event_type icon and with the 'me' indication

2017-10-20 16:19 - Mischa The Evil

Target version:	4.0.0		

Description

The activities block on the UsersController#show view is currently missing three things:

- the grouping as introduced via [#12542](#) for the general activities view(s);
- the event_type icon, as it is used for the general activities view(s);
- the indication of events that were authored by 'me', as it is used for the general activities view(s).

The attached patch fixes these inconsistencies and makes the rendering of the activities block on the UsersController#show view the same as it is for the general activities view(s). See the following screenshots:

Screenshots:	
Before:	<p>The 'Before' screenshot shows a list of activities grouped by date. The activities are: <ul style="list-style-type: none"> Today: <ul style="list-style-type: none"> 05:56 AM Private child of eCookbook - Bug #6: Issue of a private subproject (test 2) 05:56 AM Private child of eCookbook - Bug #6: Issue of a private subproject (test) 05:05 AM eCookbook - Wiki edit: Test (#1) 10/18/2017: <ul style="list-style-type: none"> 12:00 AM Private child of eCookbook - Bug #6: Issue of a private subproject (A comment with a private version.) 10/17/2017: <ul style="list-style-type: none"> 12:00 AM eCookbook - Bug #1 (Assigned): Cannot print recipes (Journal notes) 04/22/2007: <ul style="list-style-type: none"> 12:20 PM eCookbook Subproject 1 - 7.65 hours (Project: eCookbook Subproject 1) (Time spent on a subproject) </p>
After:	<p>The 'After' screenshot shows the same list of activities as the 'Before' state, but with event_type icons and 'me' indicators added. The activities are: <ul style="list-style-type: none"> Today: <ul style="list-style-type: none"> 05:56 AM Private child of eCookbook - Bug #6: Issue of a private subproject (test 2) 05:56 AM Private child of eCookbook - Bug #6: Issue of a private subproject (test) 05:05 AM eCookbook - Wiki edit: Test (#1) 10/18/2017: <ul style="list-style-type: none"> 12:00 AM Private child of eCookbook - Bug #6: Issue of a private subproject (A comment with a private version.) 10/17/2017: <ul style="list-style-type: none"> 12:00 AM eCookbook - Bug #1 (Assigned): Cannot print recipes (Journal notes) 04/22/2007: <ul style="list-style-type: none"> 12:20 PM eCookbook Subproject 1 - 7.65 hours (Project: eCookbook Subproject 1) (Time spent on a subproject) </p>

The patch, against [source:/trunk@16967](#), is produced using git format-patch which makes it apply-able using "patch -p1 < 0001-...".

Environment:
