Resolution:	Invalid	**Affected version:**	3.2.0

Description

HI!
We got a little problem in the (fine!) Meetings-Plugin made by Arnau Martel.

Every time we modify the meetings-page, the start-time is appending one hour.
Our timezone is set to GMT+1 (Berlin).

e.G.:

1) Start-time for a meeting is: 10.00 o'clock
2) I press 'modify'
3) Start-time is set automatically to: 11.00 o'clock (without any modifications made by the user).

So we have to change the start-time again when we modify the contents of a meeting.

Any suggestions?

Thank you very much.
