

Redmine - Defect #27636

Redmine does not redirect to initial project page after bulk editing issues in different sub-projects.

2017-11-24 12:43 - Stephane Evr

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	3.4.2
Resolution:	Duplicate		
Description			
After bulk editing 2 issues which are located in 2 different sub-projects of the current project, we are being redirected to the general issues page instead of being redirected to the initial project where the bulk edit occurred.			
Steps to Reproduce:			
<ul style="list-style-type: none">Build this hierarchy:			
<pre>Project A - Project A1 - Issue 1 - Project A2 - Issue 2</pre>			
<ul style="list-style-type: none">Navigate to /projects/project_a/issues pageSelect Issues 1 and 2Right clickBulk editAdd a noteSave			
<ul style="list-style-type: none">Expected: Save is successful, we are redirected back to /projects/project_a/issues pageActual: Save is successful, we are redirected back to /issues page
