Redmine - Defect #27658

Git merge-graph does not respect first parent

2017-11-27 20:55 - Joshua Judson Rosen

Status:	New	**Start date:**	
Priority:	Low	**Due date:**	
Assignee:		**% Done:**	0%
Category:	SCM	**Estimated time:**	0.00 hour
Target version:			
Resolution:		**Affected version:**	3.3.1

Description
The git DAG Mainly that the DAG always seems to be oriented backward: The revisions that "git log --graph" and gitk/qgit/etc. display as the left-hand side is on the right (what git calls the "first parent" is drawn as the `last parent'), and so all of the merges appear to be inverted.

History

#1 - 2017-11-28 04:31 - Toshi MARUYAMA

- Subject changed from Git merge-graph is inverted to Git merge-graph does not respect first parent

- Priority changed from Normal to Low

Redmine revision graph draws by revision order in DB.
