Redmine - Defect #27693

In queries, operator "Any" should be "Not empty"

Description

In queries, the operator "All" actually returns only fields which are not empty.
Let's say I create an Issue Query with the following filter:

```
    Assignee:       ALL
```

This will return all the issues with the assignee field **not empty**, same for any filter where the operator "ALL" is available.

- Could we change the naming of "ALL" to "Not empty" somewhat?
- It can still be useful to have a true "ALL" operator which returns any result (Empty OR Not Empty), because then we can quickly change the operator without having to remove/add the filter (especially if many filters are available to select from)

History

#1 - 2017-12-01 14:46 - Stephane Evr

In our redmine install, we have "ALL" instead of "ANY", but the "problem" remains

#2 - 2017-12-27 17:05 - Toshi MARUYAMA

FTR: r10562 changed "All" to "Any".

#3 - 2017-12-27 17:07 - Toshi MARUYAMA

- Subject changed from In queries, operator "All" can be confusing to In queries, operator "Any" should be "Not empty"

- Description updated
