Target version:			

Description

The CI Server (http://www.redmine.org/builds/) uses Ruby 2.4.1. But the current stable release is 2.4.3 which has been released on December 14th.

I think we should use Ruby 2.4.3 to ensure that Redmine works with the latest stable Ruby.

Ruby versions on the CI server:

- 2.4.1
- 2.3.4
- 2.2.7

History

#1 - 2024-01-21 06:10 - Go MAEDA

- Status changed from New to Closed

- Assignee deleted (Jean-Philippe Lang)

The current versions of Redmine don't support Ruby 2.4.
