

Redmine - Defect #27927

Very large production.log file

2018-01-09 20:57 - Raja Govindan

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Administration	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		
Description			
Hello,			
My redmine production.log file is grown more than 1GB;			
Can I simply rename the redmine/htdocs/log/production.log to another name ? Will the production.log file created automatically?			
Any other suggestions?			
My redmine response is getting slower recently; resource utilization is very low; I feel redmine may be taking more time in updating this log file;			
Thanks and Regards			
-/Raja G

- Description updated
- Status changed from New to Closed
- Resolution set to Invalid

Maybe the log rotation configuration described in [RedmineInstall](#) will help you.
