- Status changed from New to Closed
- Resolution set to Invalid

It is not broken but an expected behavior. Redmine 3.4.0 and later display projects in multiple columns (r15910).

If you prefer to see projects in single-column style, modify public/stylesheets/application.css (remove 10 lines):

Index: public/stylesheets/application.css

This problem was fixed in latest Redmine versions (3.4.8 and 4.0.1), please see #29951 for more details. Now root projects with their subprojects are shown in their own box without breaking on multiple columns.

Any feedback is welcome regarding the new projects page design.
