Description

#10485 has added a context menu for issues on gantt page. I think it improves usability and consistency if calendar page has the same context menu for issues.

#5 - 2018-01-27 02:45 - Go MAEDA

- Target version set to 4.1.0

The patch looks good to me.

Issues list, Roadmap, and Gantt already have a context menu in the current trunk. Calendar page should have the same context menu as well.

Setting target version to 4.1.0.
