Description

The e-mail addresses of project members are shown on their profile page by default.
The admin can neither toggle that flag for individual users, nor set a default (or enforced hide/show) for a project.

Proposed feature:

- Add per-project config option: Show e-mail by default, Hide e-mail by default, Always Show (user can't choose), Always hide (user can't choose)
- Add the flag to the user-edit screen so the admin can change it without diving into the database

I think this issue was fixed by the following issues.

- Admin can change user's email settings as of Redmine 1.1.0 ([#3503](#3503)).
- "Hide my email address" is enabled by default as of Redmine 3.2.0 ([#21042](#21042)).
- A global option to set the default value of "Hide my email address" will be added in Redmine 3.2.1 ([#21447](#21447))
