Description

I would like information about the functionality regarding the organization of the Projects considering the presentation of the projects. My version is 3.4.3 and I did not find the configuration option in the admin panel. In other versions the organization of the projects was more accessible. Any changes in the presentation criteria?
Thank you

This problem was fixed in latest Redmine versions (3.4.8 and 4.0.1), please see [#29951](#) for more details. Now root projects with their subprojects are shown in their own box without breaking on multiple columns.

Any feedback is welcome regarding the new projects page design.
