Redmine - Defect #28127

It is impossible to filter the trackers by project in the XML/REST-API

2018-02-02 11:58 - schmier fink

Status:	New	**Start date:**	
Priority:	High	**Due date:**

Target version:			
Resolution:		**Affected version:**	

Description

I can query
https://servicedesk.cor-management.ch/Servicedesk/trackers.xml
for a list of all trackers.

But I always get all trackers.
Adding the project_id to the filters has no effect.

For issues instead of trackers, it works fine.

Could you meet your needs with the following API with the include option?

/projects/[id].xml?include=trackers
