Description

Steps to reproduce:

1. Enable calculation of issue start/due date values based on subtasks in Redmine settings
2. Create a parent issue that has start/due date fields enabled
3. Add a subtask with a tracker that has start/due date fields disabled

Expected result:
Start/due date values can be set on parent issue

Current result:
Start/due dates for parent issue can't be set neither in parent, nor in subtask.
