**Description**

After updating to [r2519](#) redmine stopped to work, the error message was HTTP 500, the relevant log excerpt is the following:

```
/\ FAILSAFE /\ Mon Feb 23 20:51:51 +0100 2009
Status: 500 Internal Server Error
A secret is required to generate an integrity hash for cookie session data. Use config.action_controller.session = {
:session_key => "_myapp_session", :secret => "some secret phrase of at least 30 characters" } in config/environment.rb
/usr/lib/ruby/gems/1.8/gems/actionpack-2.2.2/lib/action_controller/session/cookie_store.rb:91:in `ensure_secret_secure'
/usr/lib/ruby/gems/1.8/gems/actionpack-2.2.2/lib/action_controller/session/cookie_store.rb:59:in `initialize'
/usr/lib/ruby/1.8/cgi/session.rb:279:in `new'
...
```

Based on error message I added the following line to environment.rb:

```
config.action_controller.session = { :session_key => "_myapp_session", :secret => "eiR0Eph9cein2ooreree3Aiya1ocho" }
```

I'm not sure, that it is the proper solution, but it is working for me.

### History

#### #1 - 2009-02-23 21:31 - Jean-Baptiste Barth

I think you've missed [this news](#)

#### #2 - 2009-02-23 22:42 - Mihaly Nyeste

- Status changed from New to Resolved

You're right I missed it, even it was right in front of my eyes...

#### #3 - 2009-02-24 11:42 - Azamat Hackimov

- Status changed from Resolved to Closed

closed :)

#### #4 - 2009-03-12 03:36 - Leandro Lucarella

- Status changed from Closed to Reopened

I don't know if this is a plug-in issue or Redmine issue but I'm getting this error when using the [BotsFilterPlugin](#). I've done all the upgrade steps (I'm on latest svn) and if I remove the plugin, it works great.

#### #5 - 2009-10-03 12:43 - Jérémy Lal

- File prod.log added

With redmine trunk 2886 and rails 2.2.3, if i simply add the bots filter plugin v1.01, it crashes (see attached stack trace), if i remove it, it works ok.

My config/initializers/session\_store.rb is properly set, and i can use redmine, login, without any trouble, except when i add this plugin.

#### #6 - 2009-10-03 17:35 - Jérémy Lal

Setting in config/environment.rb :

```
config.action_controller.session_store = :active_record_store
```

fixes the issue, though i have no idea why.

**#7 - 2009-10-03 17:36 - Jérémy Lal**

forgot to mention that  
rake db:sessions:create  
rake db:migrate  
shall be called for the previous line to work.

**#8 - 2009-10-05 00:21 - Jérémy Lal**

In fact it did not really fix the issue, it just hid it,  
see issue [#3969](#).

**#9 - 2009-11-11 19:52 - Jean-Philippe Lang**

- Status changed from Reopened to Closed

This is not reproducible with latest trunk and Rails 2.3.4.
