Category:	PDF export	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Fixed	**Affected version:**	

Description

The IssuesPdfHelperTest test fails, when starting it in isolation. It's missing the neccessary fixture definitions. Depending on the random test order, this might also lead to errors, when running the whole test suite.

Steps to reproduce:

```
RAILS_ENV=test rake db:drop db:create
rake db:test:prepare
ruby -Itest test/unit/lib/redmine/export/pdf/issues_pdf_test.rb
```

The attached patch adds the required fixture declarations and fixes the test failure.
