

Redmine - Defect #28337

Problem when creating PDF with too many columns

2018-03-14 16:21 - Vincent Robert

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Third-party libraries	Estimated time:	0.00 hour
Target version:		Affected version:	3.4.4
Resolution:	Duplicate		
Description The application does not respond if we try to export issues to PDF with too many columns (more than 60). How to reproduce this bug: 1. Create many issue custom fields You can use this command in the console: <code>(1..60).each { i CustomField.new(IssueCustomField.last.attributes.merge!({id:nil,name:"test-#{i}", is_for_all: true})).save }</code> 2. Go to /issues page 3. Choose to display every columns and apply the filter 4. Try to export to PDF This bug seems to come from the RBPdf Gem. An infinite loop may appear in the "Write" method here: https://github.com/naitoh/rbpdf/blob/0eff3fdae5a17ec111b63e3825b358a6b34c3f56/lib/rbpdf.rb#L4510 This infinite loop could overload the server and affect website availability.

Yes, that's the same issue. And I have applied your temporary patch on my Redmine applications. Thank you.

#3 - 2018-03-15 14:53 - Marius BĂLTEANU

- Is duplicate of Defect #23962: Redmine Out of Memory Exception when exporting issues with lots of columns (> 50) to PDF added

#4 - 2018-03-15 14:54 - Marius BĂLTEANU

- Status changed from New to Closed
- Priority changed from High to Normal
- Resolution set to Duplicate
