Redmine - Defect #2834

'admin' unable to change issue status on new install (0.8.1 and r2521)

2009-02-24 22:58 - John Dell

Status:	Closed	**Start date:**	2009-02-24
Priority:	Normal	**Due date:**

Category:	Permissions and roles	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Duplicate	**Affected version:**	0.8.1

Description

I made a new install of redmine and was demo'ing features to colleague and noticed that with the default 'admin' user, you can't change issue status (either via right-click or in edit issue form). If you create a new user, you can change status without issue.

Apparently, /models/issue_status.rb#find_new_statuses_allowed_to logic doesn't work for admin (should just return all statuses whenever that method is hit by admin rather than collecting statuses via workflows)

I would advocate using 'admin' for regular use, but for demo, this made redmine look bad when admin superuser couldn't change status.

Meant to say I would **not** advocate using 'admin' for regular use.

#2 - 2009-02-25 10:19 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Duplicate

See #2323.
