Description

When i want to save a custom query, the sort_criteria saved in database is wrong.
And i have this error :

```
ActionView::Template::Error (undefined method `+' for nil:NilClass):
  1: <%= hidden_field_tag 'set_filter', '1' %>
  2: <%= hidden_field_tag 'type', @query.type, :disabled => true, :id => 'query_type' %>
  3: <%= query_hidden_sort_tag(@query) %>
  4:
  5: <div id="query_form_with_buttons" class="hide-when-print">
  6: <div id="query_form_content">

```

The value used to be : --- []
but i have :

```
---
- -
- - asc
- -
- - asc
- -
- - asc
```

Or if i select just one sort item :

```
---
- - id
- - desc
- -
- - asc
- -
- - asc
```
