

Redmine - Defect #28383

custom field filter on issues list requires other filters to be respected

2018-03-20 16:02 - Andreas Kohlbecker

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>

<b>Category:</b>	REST API	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	3.3.6
<b>Resolution:</b>			
<b>Description</b>			
Custom field filters included into <i>issues</i> REST api request are not working as expected.			
<pre>/issues.json?cf_1=1234</pre>			
will return all issues not only those with the value 1234 in the custom field with id 1. That is the filter is completely ignored. The only case in which custom field filters are working is when the query string includes a project_id filter.			
<pre>/issues.json?cf_1=1234&amp;project_id=1</pre>			
This works. Only issues with the custom field 1 containing the value 1234 are being returned.			
In contrast to this adding the status_id is not causing the custom field filter to be respected.
