| <p>Currently, I can't find information whether redmine projects is public or private.</p> <p>At least, I want to a.project.public or a.project.private. on /projects.</p> <p>This patch is added both a.project class.</p> |          |                        |           |

#### Associated revisions

##### Revision 17452 - 2018-07-22 07:02 - Go MAEDA

Add CSS class to identify public projects (#28413).

Patch by Sho HASHIMOTO.

#### History

##### #1 - 2018-03-30 09:37 - Go MAEDA

- Target version set to Candidate for next major release

+1

The patch is useful for theme developers.

##### #2 - 2018-04-09 15:15 - Go MAEDA

- Target version changed from Candidate for next major release to 4.1.0

Setting target version to 4.1.0.

##### #3 - 2018-06-09 09:30 - Go MAEDA

IMHO, we don't have to add "private" class for private projects, adding .public for public projects is enough. The reasons are as follows:

- You can select by private projects by using :not (e.g. a.project:not(.public))
- Private issues have .private class but public issues don't have oppisite class .public
- If users really want .private class, we can support it in later versions. But if we implement .private class now, It will be difficult to delete it in the future due to compatibility.

Feedbacks welcome.

**#4 - 2018-07-16 04:23 - Sho HASHIMOTO**

There is no problem for adding only public.

**#5 - 2018-07-16 04:50 - Go MAEDA**

- *File redmine\_project\_visibility\_class-v2.patch added*

Slightly modified the patch to delete 'private' class.

**#6 - 2018-07-22 07:04 - Go MAEDA**

- *Subject changed from Project Visibility class to Add CSS class to identify public projects*

- *Status changed from New to Closed*

- *Assignee set to Go MAEDA*

- *Target version changed from 4.1.0 to 4.0.0*

- *Resolution set to Fixed*

Committed. Public projects have "public" CSS class after this. Thank you for your contribution.

**#7 - 2018-07-22 12:03 - Sho HASHIMOTO**

Thanks!!
