Description			
<p>We have a theme with a styling dependent on knowing when a main menu is present. We previously used a <code>body[class*="project-"]</code> selector to test when a project is shown, but as there is now a global main menu in some cases this doesn't work anymore.</p> <p>We would suggest the following addition:</p> <pre>--- a/app/helpers/application_helper.rb +++ b/app/helpers/application_helper.rb @@ -592,6 +592,7 @@ module ApplicationHelper end css << 'project-' + @project.identifier if @project && @project.identifier.present? + css << 'has-main-menu' if display_main_menu?(@project) css << 'controller-' + controller_name css << 'action-' + action_name css << 'avatars-' + (Setting.gravatar_enabled? ?
