Sorry, does it clarify what I think or I should explain why it's ugly?

I think this an issue specifically related to redmine.org as I can't find any "letter-spacing" in the trunk or the latest stables.

It is related to the classic theme which is shipped by default with Redmine ([source:trunk/public/themes/classic/stylesheets/application.css#L35](https://www.redmine.org/projects/redmine/repository/trunk/public/themes/classic/stylesheets/application.css#L35)). Is not a defect from my point of view.

I mean "Please remove letter-spacing from the <https://www.redmine.org/themes/redmine/stylesheets/application.css> as it's hard to read it.
