Redmine - Patch #28602

Move edit and delete buttons for queries to the buttons section

2018-04-22 09:03 - Bernhard Rohloff

Status:	Closed	**Start date:**	
Priority:	Normal	**Due date:**	
Assignee:	Go MAEDA	**% Done:**	0%
Category:	Gantt	**Estimated time:**	0.00 hour
Target version:	4.0.0		

Description

Except in the gantts view, in all query based views the edit and delete buttons are placed inside the buttons section (apply/clear/save) under the filters and options.
I think the gantts view should be aligned to the common UI pattern, as well.

In the submitted patch the yet empty contextual area is left inside the view as it breaks the tests and I don't know if it should be left to make further modifications easier.

It'll be nice to deliver this change along with #26125.

#3 - 2018-04-25 08:02 - Go MAEDA

- Target version set to Candidate for next major release

+1

The buttons on issues list page were moved in r15344. To make the UI consistent, I think also the buttons on gantt page should be moved to below the filters.

I'm in favour of removing the empty contextual element and update the tests accordingly.

I'm in favour of removing the empty contextual element and update the tests accordingly.

I am concerned that removing the div.contextual may affect some plugins which insert custom tags into the area.

#6 - 2018-05-08 13:15 - Go MAEDA

- Target version changed from Candidate for next major release to 4.1.0

Setting target version to 4.1.0.

#7 - 2018-06-24 03:53 - Go MAEDA

- Status changed from New to Closed

- Assignee set to Go MAEDA

- Target version changed from 4.1.0 to 4.0.0

Committed. Thank you for improving Redmine.

#8 - 2018-06-24 03:53 - Go MAEDA

- Subject changed from [Gantt] Move edit and delete buttons for queries to the buttons section to Move edit and delete buttons for queries to the buttons section
