

Redmine - Feature #28660

Change default operator for text format custom fields from "is" to "contains"

2018-04-29 11:08 - Go MAEDA

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Issues filter	Estimated time:	0.00 hour
Target version:	4.0.0		
Resolution:	Fixed		
Description			
<p>When a user adds a filter for text format custom fields on "Issues" page, default operator for the filter is "is". But I think it should be "contains" because the default operator for other filters for text objects such as "Subject" and "description" is "contains". And in my experience, we often use partial match than exact matches for text fields.</p> <p>From the viewpoint of consistency and convenience, I suggest changing the default operator for text format custom fields from "is" to "contains".</p> <p>default-operator.png</p>

#3 - 2018-05-04 04:36 - Go MAEDA

- Target version set to Candidate for next major release

#4 - 2018-05-09 02:11 - Mizuki ISHIKAWA

+1

I think that few people search by exact match.

I am searching by always change the operator to "contains".

#5 - 2018-05-09 03:48 - Go MAEDA

- Target version changed from Candidate for next major release to 4.1.0

I think this change should improve usability. Setting target version to 4.1.0.

#6 - 2018-05-12 07:43 - Go MAEDA

- Status changed from New to Closed

- Assignee set to Go MAEDA

- Target version changed from 4.1.0 to 4.0.0

- Resolution set to Fixed

Committed.
