Description Hi Team, I am evaluating redmine features and when i submit an issue with Vietnamese unicode fonts in Description text area of the issue. I got the error on browser: " Internal error " in Redmine Log, I got this error message: " rdmine Mysql2::Error: Incorrect string value " Could you please advise me how to resolve the problem on my test server. Thanks, De

History

#1 - 2018-05-15 10:05 - De Dang

This error just happens when Update 1 issue. Creating a new issue with description in vietnamese is no problem.

#2 - 2018-05-15 10:44 - De Dang

- Status changed from New to Resolved

I converted redmine tables to utf8mb4. The problem is resolved.
