### History

#### #1 - 2018-05-16 10:58 - Go MAEDA

- Status changed from New to Closed
- Resolution set to Invalid

The problem is caused by a plugin because plain Redmine does not use the string label\_added\_absolute\_time\_by.

Probably you can fix the problem by uninstalling redmine\_absolute\_dates plugin. Or replace the file plugins/redmine\_absolute\_dates/config/locales/en.yml on your system with the one from [https://github.com/planio-gmbh/redmine\\_absolute\\_dates/blob/master/config/locales/en.yml](https://github.com/planio-gmbh/redmine_absolute_dates/blob/master/config/locales/en.yml).

I replaced the en.yml files and it worked. Thanks very much !
