Redmine - Defect #28930

[Rails 5.2] sanitize dangerous query statements

2018-06-01 22:09 - Pavel Rosický

Status:	Closed	**Start date:**	
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	Code cleanup/refactoring	**Estimated time:**	0.00 hour
Target version:			
Resolution:		**Affected version:**	

Description

DEPRECATION WARNING: Dangerous query method (method whose arguments are used as raw SQL) called with non-attribute argument(s): "(CASE WHEN versions.effective_date IS NULL THEN 1 ELSE 0 END) DESC". Non-attribute arguments will be disallowed in Rails 6.0. This method should not be called with user-provided values, such as request parameters or model attributes. Known-safe values can be passed by wrapping them in Arel.sql().
