

Redmine - Feature #28952

Update User#last_login_on only once per minute

2018-06-05 10:18 - Holger Just

Status:	Closed	Start date:	
Priority:	Normal	Due date:

Category:	Performance	Estimated time:	0.00 hour
Target version:	4.0.0		
Resolution:	Fixed		
Description <p>On setups where a lot of logins happen (e.g. when heavily using the API with Basic Auth credentials), access to the @ users@ table can get contention due to the many parallel write queries to the table during each request as each request sets the last_login_on column of the user to the current date in User.try_to_login. This can result in deadlocks or general long lock waits on the database since all of these update queries will effectively be serialized per user.</p> <p>By updating the last_login_on column less often, we can drastically reduce this contention. The attached patch implements this by only updating the last_login_on column once per minute.</p>

Revision 17403 - 2018-06-17 16:51 - Jean-Philippe Lang

Update User#last_login_on only once per minute and user to reduce DB lock contention on users table (#28952).

Patch by Holger Just.

History

#1 - 2018-06-05 13:31 - Go MAEDA

- Target version set to Candidate for next major release

#2 - 2018-06-05 15:25 - Pavel Rosický

nice catch!

I'm wondering if something like this could be also applied for verify_session_token - <https://github.com/redmine/redmine/blob/43d9bea7c5da32a99c3ebdb828e23d6a02c31c12/app/models/user.rb#L442> if Rails.application.config.redmine_verify_sessions is enabled, redmine updates user tokens on each request. These updates are at the top of our db monitoring.

#3 - 2018-06-06 03:00 - Go MAEDA

- Related to Defect #20648: Users' "Last connection" is not updated correctly. added

#4 - 2018-06-08 03:02 - Go MAEDA

- Target version changed from Candidate for next major release to 4.1.0

+1

Sometimes I also experience the same problem.

Setting target version to 4.1.0.

#5 - 2018-06-09 11:49 - Go MAEDA

- Category set to Performance

#6 - 2018-06-17 16:54 - Jean-Philippe Lang

- Status changed from New to Closed

- Assignee set to Jean-Philippe Lang
- Target version changed from 4.1.0 to 4.0.0
- Resolution set to Fixed

Patch committed, thanks.

verify_session_token - <https://github.com/redmine/redmine/blob/43d9bea7c5da32a99c3ebdb828e23d6a02c31c12/app/models/user.rb#L442>
if Rails.application.config.redmine_verify_sessions is enabled, redmine updates user tokens on each request. These updates are at the top or
our db monitoring.

Please fill a separate issue so we can keep track of that.
