Redmine - Patch #29305

Use Hash#each_key instead of Hash#keys.each

2018-07-31 23:54 - Go MAEDA

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:	Go MAEDA		**% Done:**	0%
Category:	Performance		**Estimated time:**	0.00 hour
Target version:	4.0.0			

Description

Hash#each_key is faster than Hash#keys.each because it does not allocate a new array when iterating keys. See
https://github.com/JuanitoFatas/fast-ruby#hasheach_key-instead-of-hashkeyseach-code for details.
