

## Redmine - Defect #29418

### User cannot set version sharing to hierarchy or tree

2018-08-21 22:25 - Gustavo Regal

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Roadmap	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	3.4.6
<b>Resolution:</b>			
<b>Description</b>			
<p>I have a role that has the Manage versions permission. It is called "Analista/desenvolvedor".</p> <p>Then I have a project in which a user is assigned to the role "Analista/desenvolvedor". And a subproject with the "@Inherit members" option checked.</p> <p>When that user tries to create a new Version, the only possible values in Sharing are "None" and "Subprojects".</p> <p>Then I have another project with similar configuration in which the user <u>can</u> set any value to the Sharing option.</p> <p>I'm considering this to be a defect because didn't find anything in the docs but the permission Manage versions in roles configuration. Believe other aspects should not interfere.</p>			
<b>Environment:</b>			
Redmine version	3.4.6.stable		
Ruby version	2.3.7-p456 (2018-03-28)	[x86_64-linux]	
Rails version	4.2.8		
Environment	production		
Database adapter	Mysql2
