

## Redmine - Feature #29482

### Query system for Projects page

2018-09-02 18:52 - Marius BĂLTEANU

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Jean-Philippe Lang	<b>% Done:</b>	0%
<b>Category:</b>	Projects	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	4.1.0		
<b>Resolution:</b>	Fixed		
<b>Description</b> <p>The attached patch adds the existing query system (from issues and time entries) to the projects page, including the possibility to save custom queries and export to csv.</p> <p>Available columns:</p> <ul style="list-style-type: none"><li>• Name (default column)</li><li>• Status</li><li>• Short Description (default column)</li><li>• Identifier (default column)</li><li>• Subproject of</li><li>• Public</li><li>• Created</li><li>• Project custom fields</li></ul> <p>Available filters:</p> <ul style="list-style-type: none"><li>• Status with active, closed and archived</li><li>• Name</li><li>• Description</li><li>• Subproject of</li><li>• Public</li><li>• Created</li><li>• Project custom fields</li></ul> <p>Board view (default): board_view.png</p> <p>List view: list_view.png</p> <p>Some mentions:</p> <ul style="list-style-type: none"><li>- I chose to open a new ticket because the patch implements multiple related issues</li><li>- More filters and columns can be added, but I wanted to keep this patch as small as possible.</li></ul> <p>Any feedback is welcome.</p>

Option to filter after my bookmarked projects (#32302, #29482, #31355).

Patch by Marius BALTEANU.

**Revision 18843 - 2019-10-23 03:27 - Go MAEDA**

Update locales (#32302, #29482, #31355).

**Revision 18865 - 2019-10-26 09:07 - Jean-Philippe Lang**

Default sorting on projects by id is not relevant (#29482).

**Revision 18866 - 2019-10-26 09:09 - Jean-Philippe Lang**

Don't paginate the board view for now (#29482).

Subprojects may appear as root projects if their parents are on a previous page.

**Revision 18877 - 2019-10-28 14:41 - Go MAEDA**

Add a fixture for UserTest#test\_bookmarked\_project\_ids (#29482).

**Revision 18881 - 2019-10-30 03:23 - Go MAEDA**

Add a fixture for QueryTest#test\_filter\_my\_bookmarks (#29482).

Patch by Yuichi HARADA.

**Revision 18888 - 2019-11-02 08:22 - Jean-Philippe Lang**

Fix CSV export of projects (#29482).

Patch by Marius BALTEANU.

**Revision 18889 - 2019-11-02 08:24 - Jean-Philippe Lang**

Reorder links the same as other lists (#29482).

**Revision 19091 - 2019-11-20 16:01 - Jean-Philippe Lang**

Only admin users should be able to manage public queries on the project list (#29482).

Like for issues, project members with the "Manage public" queries are allowed to manage public queries inside their projects, not public global queries that are proposed on /issues.

#### Revision 19093 - 2019-11-20 16:53 - Jean-Philippe Lang

Make sure we cannot create a ProjectQuery on a given project (#29482).

#### Revision 19094 - 2019-11-20 16:54 - Jean-Philippe Lang

Merged r19091 to 4.1-stable (#29482).

#### Revision 19101 - 2019-11-20 17:03 - Jean-Philippe Lang

Merged r19093 to 4.1-stable (#29482).

### #2 - 2018-09-02 18:58 - Marius BĂLTEANU

- Has duplicate Feature #6655: Add filter for projects view page added

### #3 - 2018-09-02 18:59 - Marius BĂLTEANU

- Related to Defect #26853: Fix hardcoded project-index width for webkit and mozilla browsers added

### #4 - 2018-09-02 18:59 - Marius BĂLTEANU

- Has duplicate deleted (Feature #6655: Add filter for projects view page)

### #5 - 2018-09-02 18:59 - Marius BĂLTEANU

- Related to Feature #6655: Add filter for projects view page added

### #6 - 2018-09-02 22:35 - Marius BĂLTEANU

- Description updated

### #7 - 2018-09-02 22:49 - Marius BĂLTEANU

- File 0002-filter-after-projects.patch added

Add filter after "Project" in order to be able to select specific projects or "<< my projects >>".

As a technical note, I'm not sure if the "search\_project" is the proper permission for the ProjectQuery, but I didn't find another one and without it, the QueryController#filter returns "Unauthorized".

### #8 - 2018-09-03 22:27 - Marius BĂLTEANU

- Has duplicate Feature #12329: Project filtering in common view added

### #9 - 2018-09-04 00:07 - Marius BĂLTEANU

- Has duplicate Feature #22966: Add ability search/filter project by project's custom fields added

### #10 - 2018-09-04 00:50 - Marius BĂLTEANU

- Has duplicate Feature #22327: Sort Projects by status and custom field values added

### #11 - 2018-09-04 00:57 - Marius BĂLTEANU

- Related to Feature #572: My projects (or favourite projects) added

### #12 - 2018-09-04 03:49 - Mizuki ISHIKAWA

+1

It's a great idea!

Query system is necessary for users who are members of many projects.  
And I think the table is more beautiful than the current layout.

I hope that this change will enter the trunk as soon as possible.

**#13 - 2018-09-04 09:23 - Jens Krämer**

I don't know.

I'd say most users of most installations do not have access to that many projects at the same time to justify the full filtering capabilities here.

While I can see the appeal in just reusing the Issues / Time entries list and filter UI, I don't think that just because we already have that, it is the best solution for this page. Agreed, the current multi-column layout has issues to the point that we stuck to the single-column display at Planio, but I'd vote for fixing that instead of turning the projects page into just another "dull" tabular listing.

This page is one of several possible entry points for users to drill down deeper and as such, a more visually appealing layout would be better imho. If there really is need for search / filtering (is there? you can always use Ctrl-F as long as no pagination is involved), a single search slot searching over titles, identifiers and descriptions and limiting the list of projects on the fly would be enough.

As an admin who needs to *manage* projects instead of just looking at them and finding / selecting one, you always have the full list at /admin/projects.

**#14 - 2018-09-05 05:46 - zhangzhi liao**

HOW I setup the Patch ?

**#15 - 2018-09-05 09:23 - zhangzhi liao**

RUN patch -p1 < the-patch-file.patch.project did not work out .  
shows:

Internal error

An error occurred on the page you were trying to access.

If you continue to experience problems please contact your Redmine administrator for assistance.

If you are the Redmine administrator, check your log files for details about the error.

**#16 - 2018-09-05 09:33 - zhangzhi liao**

Hunk [#2](#) FAILED at 250.

1 out of 2 hunks FAILED -- saving rejects to file public/stylesheets/application.css.rej

**#17 - 2018-09-05 09:37 - Bernhard Rohloff**

I agree with Jens Krämer on the fact that a table can't be the default way to show an overview of the projects landscape, as it's hard for the user to orientate himself within the project structure. That said, it could be indeed a very useful additional view and a great way for project managers to get a quick status report over their projects.

And yes, the current implementation of the projects view is horrible! Perhaps we can start a discussion about ideas for a better solution on the forums or in the discord channel...!?

**#18 - 2018-09-05 09:46 - Marius BĂLTEANU**

zhangzhi liao wrote:

HOW I setup the Patch ?

Please use forum to request help.

**#19 - 2018-09-05 10:00 - zhangzhi liao**

I run

**sudo patch p0 < 0001-Queries-for-Projects.patch**

It's show

Hunk [#2](#) FAILED at 250.

1 out of 2 hunks FAILED - saving rejects to file public/stylesheets/application.css.rej.

**#20 - 2018-09-05 10:09 - Marius BĂLTEANU**

Jens Krämer wrote:

I don't know.

Hi Jens,

First of all, thanks for your feedback. Please find my thoughts below.

I'd say most users of most installations do not have access to that many projects at the same time to justify the full filtering capabilities here.

In our instance (which is a single instance and not a SaaS like), we have more than 200 active projects and our non admin internal users have access in average to almost 30 projects (including the public ones), but they are actively involved only in 4 - 8 projects. This is my case also, even if I'm an admin user, I work daily only with 4 projects. I thought that is only our problem, but I looked in the tickets and the number of Redmine.org users that requested in the past a better project list, filter capabilities and custom queries is quite big. I've related to this ticket only 7 tickets, but there are a lot more and I'll go through all of them these days.

While I can see the appeal in just reusing the Issues / Time entries list and filter UI, I don't think that just because we already have that, it is the best solution for this page. Agreed, the current multi-column layout has issues to the point that we stuck to the single-column display at Planio, but I'd vote for fixing that instead of turning the projects page into just another "dull" tabular listing.

I didn't work on this just because we already have that, I really think that once we have the query system in place for the projects list, we can develop some nice features, including a multi-column layout. When we started internally the discussions regarding the Projects page, we agreed that first we need the possibility to filter the projects and right after that, an alternative view (we've already started work on some screens using a masonry layout) because neither of us think that the tabular listing is the best solution. I'll post the screens when they are ready, but until then, please feel free to contribute if you have a proposal.

This page is one of several possible entry points for users to drill down deeper and as such, a more visually appealing layout would be better imho. If there really is need for search / filtering (is there? you can always use Ctrl-F as long as no pagination is involved), a single search slot searching over titles, identifiers and descriptions and limiting the list of projects on the fly would be enough.

I can tell you that it becomes annoying to use multiple times per day the CTRL + F or the quick jump box (both combination requires some extra clicks/steps). Also, I consider the browser buttons non user friendly for users (this is why I worked on [#8888](#)).

As an admin who needs to *manage* projects instead of just looking at them and finding / selecting one, you always have the full list at /admin/projects.

As admin, we need additional columns, filters capabilities and informations that the current list do not provide, please see two examples: [#13696](#), [#23954](#).

In conclusion, I'm not saying that my patch is perfect or the best solution, I'm just saying that is a good starting point (and a must IMHO) to build a nice and useful projects list.

#### #21 - 2018-09-05 10:57 - zhangzhi liao

I really want use that Patch, but did not works out .

Environment:  
Redmine version 3.4.6.stable  
Ruby version 2.3.7-p456 (2018-03-28) [x86\_64-linux]  
Rails version 4.2.8  
Environment production  
Database adapter Mysql2  
SCM:  
Subversion 1.10.0  
Git 2.17.1  
Filesystem  
Redmine plugins:  
no plugin installed

#### #22 - 2018-09-05 11:05 - Marius BĂLTEANU

The patches are made against Redmine trunk version (future 4.0.0 Release) and not current Redmine 3.4.6 version. Please again, use Forums to request help. Here we should discuss about the feature implementation in the Redmine core.

**#23 - 2018-09-08 09:04 - Marius BĂLTEANU**

- Has duplicate Feature #2399: Custom field filtering for projects added

**#24 - 2018-09-10 08:31 - Marius BĂLTEANU**

- File deleted (0001-Queries-for-Projects.patch)

**#25 - 2018-09-10 08:34 - Marius BĂLTEANU**

- File 0001-Queries-for-Projects.patch added

Updated the patch to fix some issues when exporting columns to CSV and to prevent some n+1 queries.

**#26 - 2018-09-10 22:19 - Marius BĂLTEANU**

- File deleted (0001-Queries-for-Projects.patch)

**#27 - 2018-09-10 22:21 - Marius BĂLTEANU**

- File 0001-Queries-for-Projects.patch added

Updated the patch to remove some unused CSS classes.

**#28 - 2018-09-12 00:16 - Zbigniew Nowacki**

+1

This is a very useful feature.

Users, who have access to few projects don't care the view of Project window.

I have usually a lot of active projects and it would be much better to use a table view.

Table view is also a kind of raport (csv export is implemented). I think some additional information (columns) could be useful. I mean sums of issues fields:

- Spent time
- Estimated time
- Custom fields (numbers only)

These sums are implemented in an issues view.

I think Description should be left aligned (because of Wiki formatting of this field).

**#29 - 2018-09-16 13:43 - Marius BĂLTEANU**

- File 0001-Queries-for-Projects.patch added

Zbigniew Nowacki wrote:

Thanks for your feedback.

Table view is also a kind of raport (csv export is implemented). I think some additional information (columns) could be useful. I mean sums of issues fields:

- Spent time
- Estimated time
- Custom fields (numbers only)

These sums are implemented in an issues view.

I think that it'll be better to add these columns as separated tickets when and after this feature is implemented in order to keep the changes as small as possible.

I think Description should be left aligned (because of Wiki formatting of this field).

Agree, fixed in the attached patch.

**#30 - 2018-09-16 13:43 - Marius BĂLTEANU**

- File deleted (0001-Queries-for-Projects.patch)

**#31 - 2018-09-16 13:45 - Marius BĂLTEANU**

- Related to Feature #23954: Shows the date of the last activity on Projects administration added

**#32 - 2018-09-16 13:45 - Marius BĂLTEANU**

- Related to Patch #13696: Projects admin, show issues count added

**#33 - 2018-09-18 07:35 - Marius BĂLTEANU**

- Target version set to Candidate for next major release

**#34 - 2018-09-23 11:00 - Marius BĂLTEANU**

- File deleted (0001-Queries-for-Projects.patch)

**#35 - 2018-09-23 11:04 - Marius BĂLTEANU**

- File 0001-Queries-for-Projects.patch added

- File 0003-filter-after-parent-project.patch added

- Description updated

Updated attachment:0001-Queries-for-Projects.patch to include identifier as a default column.

Added [0003-Filter-after-parent-project.patch](#) patch that adds the "Subproject as" option to available filters.

When [#26537](#) is fixed, I'll add the option in Administration to set the default columns.

**#36 - 2018-09-24 06:57 - Marius BĂLTEANU**

- Related to Feature #28678: Allow to filter projects where the specific role is used added

**#37 - 2018-09-26 22:37 - Marius BĂLTEANU**

- File deleted (0001-Queries-for-Projects.patch)

**#38 - 2018-09-26 22:43 - Marius BĂLTEANU**

- File 0001-Queries-for-Projects.patch added

- File 0004-Set-default-configuration-for-the-projects-list.patch added

Updated attachment:0001-Queries-for-Projects.patch in order to exclude "Archived" status from project statuses filter (the option is useless because the Archived projects are not returned by default and is not in the scope of this ticket to change the existing behaviour).

Added patch attachment:0004-Set-default-configuration-for-the-projects-list.patch to allow admin users to select the default columns for projects list.

**#39 - 2018-10-02 14:54 - Fabian Schuttenberg**

I just discovered this issue and would like to emphasize that these are very useful features - thank you very much for implementing them.

In addition we may be able to help with testing - just let us know if you think that makes sense.

Finally, if it is not too complicated, we may consider doing a 3.x backport or 3.x plugin for those features since we would love to use it asap.

**#40 - 2018-10-22 00:13 - Marius BĂLTEANU**

- Related to Feature #20081: Filter issues and time entries by project status added

**#41 - 2018-11-11 22:33 - Marius BĂLTEANU**

Jens Krämer wrote:

While I can see the appeal in just reusing the Issues / Time entries list and filter UI, I don't think that just because we already have that, it is the best solution for this page. Agreed, the current multi-column layout has issues to the point that we stuck to the single-column display at Planio, but I'd vote for fixing that instead of turning the projects page into just another "dull" tabular listing.

Jens, I've added to [#29951](#) two proposals for the projects page.

**#42 - 2018-11-11 22:33 - Marius BĂLTEANU**

- Related to Patch #29951: Quick design fix/proposals for projects index page added

**#43 - 2018-12-04 01:08 - Marius BĂLTEANU**

- Related to Feature #24841: Hide projects user is only admin but not has assigned any role in the project overview (as it is already done in the project dropdown) added

**#44 - 2018-12-04 13:59 - Ivan Gretskey**

This is a super useful feature. Thanks for making this patch. I did not quite get if it makes possible filtering by custom fields. Hope this feature is available.

**#45 - 2018-12-12 23:18 - Marius BĂLTEANU**

- File deleted (0001-Queries-for-Projects.patch)

**#46 - 2018-12-12 23:19 - Marius BĂLTEANU**

- File deleted (0002-filter-after-projects.patch)

**#47 - 2018-12-12 23:19 - Marius BĂLTEANU**

- File deleted (0003-filter-after-parent-project.patch)

**#48 - 2018-12-12 23:19 - Marius BĂLTEANU**

- File deleted (0004-Set-default-configuration-for-the-projects-list.patch)

**#49 - 2018-12-12 23:44 - Marius BĂLTEANU**

- File 0001-Filters-for-Projects-page.patch added

- File 0002-Filter-after-projects.patch added

- File 0003-Filter-after-parent-project.patch added

- File 0004-Option-to-switch-between-table-list-and-board-list.patch added

- File 0005-Set-default-columns-for-the-projects-list.patch added

- File projects\_filters.png added

- File list.png added

I've changed the order in which I propose the implementation of this feature.

**1. 0001-Filters-for-Projects-page.patch:**

It just adds the Filters capability to the actual view without changing anything else.

projects\_filters.png

As it can be seen in the screenshot, the Options fieldset is missing because it make no sense.

**2. 0002-Filter-after-projects.patch**

**3 0003-Filter-after-parent-project.patch**

The same as the previous one.

**4. 0004-Option-to-switch-between-table-list-and-board-list.patch**

It adds a new dropdown "Display results as" under the Options fieldset that allows users to switch between the current view (board) and the classical table view (list).

list.png

**5. 0005-Set-default-columns-for-the-projects-list.patch**

The same option in the administration page as the "Issues list defaults" and "Timelog list defaults". The option applies only for the view "List".

During the implementation, I took some decisions about I would like some feedback:

1. Pagination applies also for the "Board" view and I'm not sure if is ok or we should not limit the returned results (as is right now).
2. If the default view (Board or List) should be configurable in the Administration page.

I'm assigning this to [4.1.0](#) in order to take at least some feedback.

**#50 - 2018-12-13 01:08 - Tatsuya Saito**

+1

Thanks for good patch :)

1. Pagination applies also for the "Board" view and I'm not sure if is ok or we should not limit the returned results (as is right now).

I think ok.

2. If the default view (Board or List) should be configurable in the Administration page.

I think we should config it.

BTW **default\_sort\_criteria** in project\_query.rb is correct?

A parent-child relation of projects is not good display on default list view.

I think following is better.

```
def default_sort_criteria
-  [['left', 'desc']]
+  [['parent_id', 'desc']]
end
```

I hope this will be helpful to you.

#### #51 - 2018-12-16 15:49 - Marius BĂLTEANU

Tatsuya Saito wrote:

2. If the default view (Board or List) should be configurable in the Administration page.

I think we should config it.

I'll do it in a next patch.

BTW **default\_sort\_criteria** in project\_query.rb is correct?

A parent-child relation of projects is not good display on default list view.

I think following is better.

I preferred to keep the current sort.

I hope this will be helpful to you.

Thanks. Any feedback is helpful.

#### #52 - 2018-12-16 15:55 - Marius BĂLTEANU

- Assignee changed from Marius BĂLTEANU to Jean-Philippe Lang

- Target version changed from Candidate for next major release to 4.1.0

Jean-Philippe, what do you think about the proposed implementation?

I'm assigning this to [4.1.0](#) because it is a long requested feature (a lot of related issues) and allows us to make future improvements (for ex: [#23954](#), [#13696](#)).

#### #53 - 2019-01-05 10:46 - Marco Descher

+1 please add this feature

#### #54 - 2019-01-21 16:26 - Vincent Robert

- File projects.png added

Hello. It would be a great improvement.

We are actually using a similar solution for years, thanks to this plugin: [https://github.com/jbbarth/redmine\\_better\\_crossprojects](https://github.com/jbbarth/redmine_better_crossprojects).

It allows us to deal with 500+ projects on our main Redmine installation. Maybe it can help. It looks like this:

projects.png

**#55 - 2019-01-21 21:51 - Marius BĂLTEANU**

- Has duplicate Feature #26494: Add ability to enable\disable multiple columns on project list page added

**#56 - 2019-01-28 15:59 - Jeremy Bailey**

Can this patch please include the ability to filter projects based on their custom fields?

Here are the updated patches, all tests pass.

**#66 - 2019-08-30 16:02 - Sebastian Paluch**

+1

This looks great, current default project page is useless. We use a plugin to deal somehow with big number of projects we have.

The only missing function would be ability to filter by custom fields and add/mark favorite projects.
