<b>Target version:</b>			
<b>Resolution:</b>			
<b>Description</b> I have been using Redmine for little over a month now. I already have 15 or so projects on my sidebar and in my projects view. It would be great if there was some way of archiving the projects. A simple close project button would be great, maybe even move files associated with the project and the repo to an archive directory. Thoughts?

Did you try the 'Archive' link in the project admin list?

- Status changed from New to Resolved

Of course the feature already exists. Thank you for taking the time to contact me Jean-Phillipe.
