

Redmine - Patch #29589

Set the first status as a default status in "New tracker" form

Category:	Administration	Estimated time:	0.00 hour
Target version:	4.1.0		
Description			
The default status of tracker is mandatory. But, a blank is set in "New tracker" page. I think it is necessary to set initial value.

- Subject changed from "Default status" of "New tracker" page needs to set initial value. to Set the first status as a default status in "New tracker" form

- Target version set to 4.1.0

I often forget to select the default status and see a validation error. It always irritates me.

Setting the target version to 4.1.0.

The screenshot shows the 'New tracker' form in Redmine. The 'Default status' dropdown menu is highlighted with a pink box. The form includes fields for 'Name', 'Default status', 'Issues displayed in' (set to 'roadmap'), 'Description', and 'Standard fields' (checked). The 'Assignee' field is also visible at the bottom.

- Status changed from New to Closed

- Assignee set to Jean-Philippe Lang

Committed, thanks.
