Redmine - Patch #29674

Missing validation for custom field formats based on RecordList

2018-09-25 13:24 - Alexander Achenbach

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:	Jean-Philippe Lang		**% Done:**	0%
Category:	Custom fields		**Estimated time:**	0.00 hour
Target version:	3.4.7			

Description

No validation is performed on input given to custom field formats

- EnumerationFormat
- UserFormat
- VersionFormat

(all based on RecordList). While displayed choices are properly restricted, manipulation of the form on the client side allows to send arbitrary record IDs, which will be accepted without further checks.

The attached patch (tested on Redmine 3.4.6) adds a validation function to RecordList.

Associated revisions

Revision 17645 - 2018-11-28 19:15 - Jean-Philippe Lang

Missing validation for custom field formats based on RecordList (#29674).

Patch by Alexander Achenbach.

+1
I also think that the validation that 'Alexander Achenbach' pointed out should be done.
Actually, by manipulating the form on the client side, it was possible to send arbitrary record ID.
I added a test code to the patch made by 'Alexander Achenbach' and attach it.

#2 - 2018-10-04 15:41 - Go MAEDA

- Target version set to 3.3.9

Setting the target version to 3.3.9.

#3 - 2018-11-28 19:16 - Jean-Philippe Lang

- Subject changed from missing validation for formats based on RecordList to Missing validation for custom field formats based on RecordList

- Status changed from New to Resolved

- Assignee set to Jean-Philippe Lang

Patch committed, thanks.

#4 - 2018-11-29 16:44 - Jean-Philippe Lang

- Status changed from Resolved to Closed

#5 - 2018-11-29 20:10 - Jean-Philippe Lang

- Target version changed from 3.3.9 to 3.4.7

Reverted from 3.3-stable, ProjectCopyTest#test_copy_issues_should_reassign_version_custom_fields_to_copied_versions was failing.
