Description

Hello,

I need to add time filter/column when the spent time was added/logged. Now is only date **2018-09-25** (in the snapshot), but I want **2018-09-25** and time **13:52** too. The time is in the database, but not showed. When I open atom, the time is there.

This is the output from the atom:

```xml
<?xml version="1.0" encoding="UTF-8"?>
<feed xmlns="http://www.w3.org/2005/Atom">
  <title>Spent time</title>
...
<updated>2018-09-24T13:52:48Z</updated>
...
```

I need add this column in the csv export too.

Can someone help me?

Thanks
