Description

Seems the route reorganisation of r2581 broke the assignment of redmine account to repository users, since only get requests are allowed for all repository actions.

I have a patch for config/routes.rb ready for inspection at
http://github.com/bkw/redmine/commit/5fbb8e36ad45b4b1909e97fa67b13fce366c345e that works for me, but since I'm very new to this whole thing you'll probably want to use a more elegent approach to allow posts to repository/commiters again.
